## Profile

Frontend Developer skilled in building responsive, user-friendly web interfaces using HTML5, CSS3, JavaScript, and React. Strong understanding of API usage and modern UI/UX design principles. Eager to join a team where I can learn, grow, and contribute to real-world projects.

## Skills & Abilities

- **Frontend:** HTML5, CSS3, JavaScripts
- **Frameworks / Libraries:** ReactJS, Tailwind CSS
- **APIs:** Basic API integration (fetch, JSON handling)
- **UI/UX:** Responsive design, layout structuring, clean UI
- **Tools:** Git, GitHub, VS Code

## Projects

- **Personal Portfolio Website** – HTML, Tailwind CSS, React JS.  
Designed and developed a responsive personal portfolio website to showcase projects and skills. Implemented modern UI/UX using Tailwind CSS, interactive components with React JS, and optimized layout for multiple devices. Enhanced understanding of component-based architecture and frontend best practices.
- **Google Gemini Clone** – HTML, CSS, JavaScript, React.  
Developed a responsive search engine interface inspired by Google Gemini. Enhanced the tutorial base with custom UI improvements and interactive features, gaining hands-on experience in component-based architecture, API integration, and modern frontend development practices.
- **E-commerce web Application** – HTML, CSS, React JS.  
Developed a responsive clothing e-commerce website featuring product listings, categories, and cart functionality with focus on user friendly design.
